When you come with your puppy to class bring with you the following:

Ensure your puppy is wearing a suitable flat collar or a harness would be preferable and lead. Chain leads and retractable leads or not suitable for a class environment.

Puppy's blanket or a piece of their bedding so that they have something which smells familiar to help them settle

A puppy Kong that is either smeared with Kong puppy paste, or stuffed with moist food (not just dry kibble).

A small portion of your puppies normal dry kibble

Some chicken, liver, mild cheese or sausage. This should be cut up into small pieces about the size of a pea.

A puppy toy, we do not allow the use of squeaky toys in class as this can be distracting to other puppies.

We do not allow off-lead play in class at all, this simply becomes a 'free-for-all' where some puppies will learn how to bully and other puppies will fall victim, this can easily frighten timid puppies and teaches the bullies bad habits, not to mention puppies can become injured. Instead we encourage you and your puppy to build your bond together through structured, fun, interactive training classes which will provide your puppy with mental stimulation.

Well behaved children are welcome in our classes; however, they remain the responsibility of the parents, they must be supervised at all times and are required to remain seated during class time.
